THE GLOBAL QUALITY SCHOOL

WEB OF SCHOOLS LINKED TO LICEU CONSERVATORY OF THE MUSIC

The Liceu Conservatory of Music partners with schools all over our area.This consolidated programme takes pride in sharing experiences and extending musical practices to young people starting from early ages. The Conservatory seeks out and helps to develop musical talent, valuing the importance that music has on child development and learning.

La Miranda and Liceu Conservatory share the same musical methodology structure, guaranteeing an excellent level with support from the curriculum, specially designed resources, continuous evaluation and a selection of artistic activities including instrumental ensembles and choir which will be a part of the official *Liceu Familiar* concerts.

ESCOLA DE MÚSICA VINCULADA CONSERVATORI LICEU

la miranda
THE GLOBAL QUALITY SCHOOL

BASIC LEVEL

The Basic Level programme consists of six grade levels with classes such as musical language, choir singing, instrumental lessons and instrumental ensembles. At the end of the programme, when students have reached the age of 12, they will be prepared to join the Conservatory and have access to the professional studies. Alternatively, students can join the Advanced Level programmes which focus on classical or jazz music.

The Liceu Conservatory uses an evaluation format which consists of exams and an instrumental jury. This official assessment guarantees the student's level in each of the Conservatory grade courses.

Students are evaluated annually by Liceu Conservatory professors in collaboration with La Miranda teachers.

This continuous assessment motivates students while at the same time assuring families and teachers that the musical education their children are receiving is being carried out in a positive and professional manner. Once the student successfully completes each level, they are granted an official **Liceu Conservatory Diploma**. The Liceu Conservatory is the only institution in Spain that offers all levels of the music education pyramid: primary musical education, professional studies, undergraduate and graduate university studies.

BASIC 1 · 2
MUSICAL LANGUAGE

YEARS 1 -2

CURRICULAR CLASS

During the first two years of Primary Education all students become part of the Basic programme on a curricular schedule. Students receive two hours of music class weekly, one focused on choir singing and the other one focused on music theory.

At the end of the school year, evaluators from the Liceu Conservatory in collaboration with teachers from La Miranda, hold an evaluation of each student in order to grant them with the official diploma of Basic 1 or 2 in Musical Language.

During this stage of musical discoveries, students are exposed to the basic contents of music theory and writing, vocalization, group singing and aural training. Instrumental training is not compulsory but highly recommended during these stages. At La Miranda, students can enroll in extracurricular instrument lessons in violin, cello, guitar, flute, oboe or piano.

BASIC 3 - 6
MUSICAL LANGUAGE

YEAR 3 · 6

EXTRACURRICULAR

Once the students have successfully finished level Basic 2, from Year 3 onwards, the Liceu Basic programme becomes optional. Students enrolled in the Basic programme must course two extracurricular classes: Musical Language and instrumental individual lessons, in an instrument of their choice. Furthermore, they will form part of our Music Band. At La Miranda, students can take individual lessons in violin, cello, guitar, flute, oboe or piano.

At this stage students will have four evaluations each year, two on Musical Language and another two on their chosen instrument. Throughout these courses, students will continue to develop aural training as well as focus on musical theory analysis, vocalization, rhythm percussion, listening skills and exercises to improve their creative thinking.

Students who do not desire to continue coursing the Basic programme will still have their curricular one-hour music class based on the Liceu Conservatory curriculum. Moreover, they can participate in the optional class of Music Band as well as taking part in the *cantatas* which take place during concert season *Liceu Familiar*. However, participation in the cantatas is part of the final evaluation for those students enrolled in the Liceu Basic program.

INSTRUMENTAL TRAINING

BASIC 1-2 INSTRUMENTAL

YEAR 1 - 2

EXTRACURRICULAR

At La Miranda, students can be enrolled in individual violin, cello, guitar, flute, oboe, piano, singing or drums lessons. Instrumental training in these stages is not compulsory but highly recommended.

If individual instrument lessons are taken, students will be examined at the end of the school year for the following instruments: violin, cello, piano, guitarra and flute, to obtain the **Bàsic 1 or Bàsic 2 Instrument Certification.** (Singing and drums follow the modern music curriculum and for now are not examined).

In this evaluation, students will have to play a concert program n which they will have to demonstrate basic concepts like good posture, technical studies, sight reading and their own composition.

Further information on these lessons can be found in the extracurricular booklet.

BASIC 3 - 6 INSTRUMENTAL

YEAR 3 - 6

EXTRACURRICULAR

During these stages, students will develop and consolidate basic repertoire in their chosen instrument.

All students at these stages must complete two evaluations a year in their instrument in which they must play a concert program of approximately 7 to 10 pieces depending on the instrument.

The evaluation contents are: technical exercises, sight reading, *etudes* and different pieces studied with their teacher.

From the Basic 3 level and on, instrumental students must be enrolled in the Musical Theory extracurricular class.

Further information on these lessons can be found in the extracurricular booklet.

CANTATAS AND *LICEU FAMILIAR* CONCERT SEASON

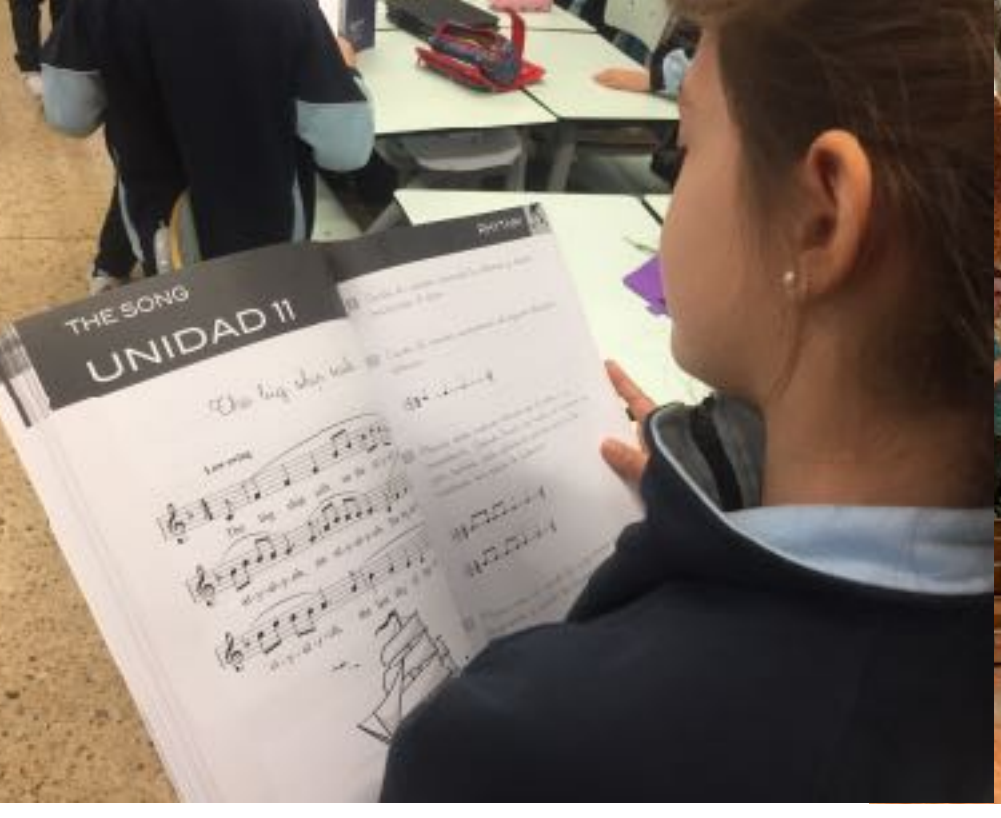
CANTATAS

As part of the Liceu Family concert season, students will have the opportunity to participate in several choir concerts every year. These concerts are held at the Palau de la Música Catalana or at the Liceu Conservatory Auditorium.

Students have the chance to be accompanied by musicians from the conservatory and sing at one of the most important concert halls in Barcelona.

The concert repertoire is prepared within the curricular music class. As from Basic 3 level, taking part in the *cantatas* is taken into account for the final evaluation.

Once the school year starts, families will be informed about the dates of the *cantatas*.



PROGRAM FEES

Liceu Project yearly fee (Year 1 - 2).....147EUR

Includes: didactic material, Liceu Book, Musical Language evaluations and participation in Liceu Conservatory activities.

Liceu Project yearly fee (Year 3 - 6).....113EUR

Includes: didactic material, Liceu Book and participation in Liceu Conservatory activities.
